

Cantre Mobility are proud to present the disability range from

This range has been designed with the help of Disability Access Charter to meet the needs of people with disabilities and to comply with Section M of the Building Regulations 1991. The non-slip grip used on the products is available in a choice of three colours to provide contrast against background colours for those with visual disabilities. The grip is suitable for use across a wide temperature range and can be used both inside and out. Most of the products are manufactured in stainless steel making them suitable for damp environments such as bathrooms and also for outdoor use.

Cantre Mobility stock a representative selection of these products. Please ask for further details.
